PROFESSIONAL SUMMARY

Senior Flutter Developer with 6+ years of experience building high-performance, cross-platform mobile applications across FinTech, HRTech, EdTech, Recruitment, and E-commerce domains. Currently leading AI-powered mobile product development at Finva Tech Pvt. Ltd., designing scalable Flutter architectures, mentoring development teams, and integrating Generative AI capabilities into production applications. Skilled in delivering end-to-end mobile solutions — architecture, UI/UX implementation, API integration, performance optimization, and Play Store/App Store deployment.

PROFESSIONAL EXPERIENCE

Senior Flutter Developer — Finva Tech Pvt. Ltd.

Mar 2024 – Present

- Lead end-to-end Flutter application development from architecture through production deployment, following Clean Architecture and MVVM principles.
- Design and integrate Generative AI capabilities (Gemini API, OpenAI API, prompt engineering) into enterprise mobile applications.
- Mentor Flutter developers through code reviews, technical guidance, and defined engineering best practices.
- Collaborate with product managers, UI/UX designers, and backend teams to deliver multiple enterprise-grade applications.

Flutter Developer — Act T Connect

Jul 2022 – Jan 2024

- Built scalable, responsive Flutter applications across HR, Recruitment, and Business Management platforms.
- Designed reusable widgets and modular architecture, improving code quality and reducing technical debt.
- Integrated REST APIs and Firebase services; collaborated closely with QA and backend teams on architecture and feature planning.

Junior Flutter Developer — iBigDo Technologies

Aug 2020 – Jun 2022

- Developed Flutter UI from Figma designs and integrated REST APIs, Firebase Authentication, and Firestore.
- Delivered multiple client projects end-to-end, building a strong foundation in scalable mobile development.
